Allowable Subject Matter

1. Claims 2-21 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or fairly suggest to one of ordinary skill in the art, in conjunction with all the other limitations of the claims:

With respect to claim 2 and all its dependencies:

- A method comprising disconnecting a pair of opposed pins that are supporting the ink capturing vessel from movable operative engagement with a cash dispensing automated banking machine housing

With respect to claim 15 and all its dependencies:

- A method comprising disengaging a pair of opposed pins that are supporting the ink capturing vessel from movable operative engagement with a cash dispensing automated banking machine housing

With respect to claim 18 and all its dependencies:

- A method comprising disconnecting a pair of opposed pins that are supporting the ink capturing vessel from movable operative engagement with a cash dispensing automated banking machine housing

With respect to claim 21 and all its dependencies:

- A method comprising connecting a pair of opposed pins that are in movable engagement with a housing of a cash dispensing automated banking machine to support an ink capturing vessel used to capture excess ink

The prior art of record fails to provide sufficient teaching or motivation to one of ordinary skill in the art to provide the additionally recited features of these claims in the combinations as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
